Re: ALLAN CRAWFORD

Alan had a very productive week with Holcomb in Washington. From our efforts we have the poster session for the Aerospace Medical Society meeting and a paper which Crawford will leave with the meeting chairman for consideration of publication in the Society's journal. In addition, a second paper was developed which Holcomb is presenting tomorrow at an indoor air quality conference in Lisbon. Crawford had a bit of time with John Rupp and a couple of hours with Gray. He will be added to the mailing list for all ETS materials sent out by the Georgetown group. Towards the end of the week, I did begin to feel a little sorry for him. We worked solidly 9-5 everyday with a short break for lunch in the C&B cafeteria. I think he was a bit ragged by Friday and not particularly happy to get on a non-stop back to Sydney.

Following are his expenses related to the U.S. trip which we will pay from here and bill back 1/2 (\$5,955.30) to you through inter-company transfer.

Airfare	\$3,880.00
Hotel	1,839.60
Fees + expenses	
8 days @ \$750/day	6,000.00
expenses	<u>191.00</u>
Total	\$11,910.60

Fees for preparation time prior to and following his trip will be paid entirely by PMI.

2029377222

Thanks for sharing these expenses.

Also I enclose a copy of his latest letter regarding his trip to New Orleans. I'm afraid he thinks he has found the golden goose and is going to be disappointed when I don't deliver a round-the-world trip.

Following up on a message I received from Michele Coventry yesterday, I'll get a fax off to Allan today c/o Michele with a cc to you.

With best wishes.
